### Widow Of Tax Assessor Files \$27,834 Suit

by the widow of former Coffee County Tax Assessor, W.T. "Mack" McKinney. The suit, filed on Tuesday, May 26, in Enterprise, contends that the county owes the money for work done by the tax assessor for losses he incurred due to the property tax reappraisal program.

McKinney, who died April 5 while in office, first asked the commission for the money on March 10, 1980. At a McKinney asked for \$27,834.34 to cover additional salaries he had to pay due to the reappraisal program. The tax assessor stated he paid \$12,141.19 in salaries from April, 1978, to October, 1978, and \$15,693.15 in salaries from October 1978 to September 1979.

The commission was in doubt over the legality of the request and asked for an attorney general's opinion. The attorney general replied, "It will be necessary for the county commission to determine for itself that the additional cost and salaries to be paid were the result of the reappraisal program. However, acting on the fact that the presumption is true, the commission should reimburse the tax assessor for the work he performed."

At a March 24 commission meeting, McKinney brought along Johnny Bowden, a certified public accountant, who gave a detailed report or McKinney's finances. The report showed that from April 10, 1978, to September 30, 1979, McKinney took in \$64,333.50 in commission from fees, and had \$65,376.70 in expenses for a net loss of \$1,043.20. When a \$10,572.13 in personal withdrawals was added, the loss came to \$11,615.33.

The commission failed to take any action, and on October 27, 1980, McKinney was back before the com-

note on his home and property to cover October, 1979. He also stated that during that time he had spent over \$1,000 out of his own pocket. He reported he needed \$30,326.26 to cover all the expenses. If paid, McKinney said it would leave him with a total salary of \$11,221.51 for 18 months work.

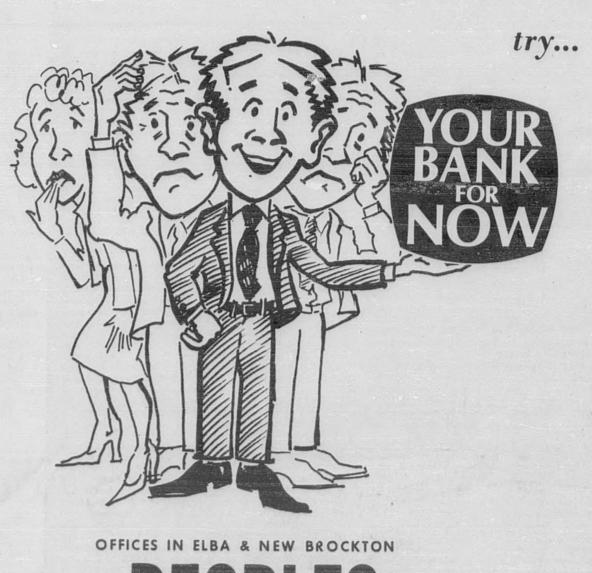

McKinney passed out copies of Act #79-587 which authorized the commission to reimburse the tax assessor up to \$40,000 for services during the re-appraisal program. The commission was sympathetic to McKinney's plea, but as before, it stated every county agency should pay their share of the

McKinney's final meeting with the mmission came on November 24. 1980, when he presented a detailed breakdown on the funds needed from each county agency to meet the \$30,000 needed to cover his personal losses due to the reappraisal program. The breakdown went as follows: county commission - \$12,900; Enterprise - \$8,850; Elba - \$600; New Brockton -\$90; Kinston - \$60, and the three school boards - \$7,500.

The offices of the tax assessor and tax collector were combined in January. 1981, when McKinney became too ill to serve, and the request was forgotten until the lawsuit was filed last week.

It can be inconvenient at times, but it the hunt was over! Not saves a lot of hassle with the public and employees who don't what we mean, but certainly

saves a lot of hassle with the public and employees who don't have the privilege of free transportation.

Executives in private business are sometimes furnished with company cars to use on company business with full knowledge some private use will take place. This is simply part of their employment agreement. However, when government agencies give out "company cars" for exclusive use by public employees, they are almost always opening use by public employees, they are almost always opening themselves for constant criticism for real and-or imagined misuse....everyone pays taxes and everyone has opinions on how that tax money should be spent.

#### Sickle cell anemia remains incurable

sickle cell trait.

Most people with sickle cell trait, though, never develop any of the problems associated with sickle cell anemia, according to a specialist in blood disease at the University of Alabama in Birmingham (UAB).

Dr. C.W. Scott, Jr., who also is deputy dean of the University's School of Medicine, said a person can inherit the gene for sickle cell anemia associated with sickle cell anemia associated with sickle cell anemia aspect of sickle cell anemia aspect of sickle cell anemia is the fact that if one person in a family has it, others also are likely to have the disease.

"The double dose that produces sickle cell anemia affects roughly a quarter of one percent of the black population," Dr. Scott said.

"That still works out to a spretty large number of people who must deal with the cine, said a person can inherit the gene for sickle cell anemia is the fact that if one person in a family has it, others also are likely to have the disease.

"We commonly find more than one case in a family," the physician said.

"That still works out to a pretty large number of people who must deal with the cine, said a person can inherit the gene for sickle cell anemia is the fact that if one person in a family has it, others also are likely to have the disease.

"We commonly find more than one case in a family," the physician said.

"That still works out to a pretty large number of people who must deal with the cine, said a person can inherit the gene for sickle cell anemia in a family has it, others also are likely to have the disease.

"We commonly find more than one case in a family," the physician said.

"That still works out to a spectral control of the lack population," and the family has it, others also are likely to have the disease.

"We commonly find more than one case in a family," the physician said.

"That still works out to a spectral control of the lack population," the produces sickle cell anemia is the fact that if one person in a family has it, others also are likely to have the disease. cine, said a person can problems inherit the gene for sickle cell causes."

causes."

He explained that sickle cell anemia victims produce a peculiar type of hemoglobin, the material in red blood cells responsible for carreira. the material in red blood cells responsible for carrying oxygen to the tissues. Under certain conditions this abnormal hemoglobin will become very rigid. This leads to two major problems:

people with sickle cell trait never develop the disease itself and never have any problems because of it.

"If you are found to have the trait, this does not mean you have some horrible disease." Descendent seeking info on Whites

Lloyd G. White of Chipley is seeking information concerning the history of his ancestors and hopes to enlist the assistance of persons throughout the southeast. Five years ago White spearheaded a White family gathering and reunion for descendents of his grandparents, Charles Edward White, and Endean Grand Parents, In s does not mean you have some horrible disease or a shortened lifespan or anything like that. Under extreme conditions, such as flying at high altitudes in an unpressurized airplane, that trail could cause difficulty. But under normal conditions, but on the arms, legs, and chest. Other complications can parents, Charles Edward White and Eudora (Dora) Miller White. Later the event was broadened to include descendents of his great grandparents, Joseph White and Winnie Elizabeth Bar-

Joseph and Winnie migrated to west Florida from Still no cure for sickle cell anemia. Current treatment records show that Joseph joined the Confederate Army on March 28, 1862 in Jackson White believes his great

South Carolina and his great grandmother in Georgia. He said he gathered this information from census records. The couple had nine children one. They were John, James M., Henrietta, Thomas Nora, Frank, Charles, Irving,

formation, Joseph White had seven brothers and sisters: Aaron, Caleb, Elizabeth, Martha, Henry, Mary Ann (or Polly), and Fannie. White said he was unable to determine who their parents were, but believes they were possibly Thomas White and Sarah Whittle White. Anyone with information concerning either the White or Barwick lines can contact him at The White Family Record, P.O. Box 53, Chipley, Fla. 32428.

tinclude heart, lung or kidney disease. An occational sickle cell victim also will experience a problem Dr. Scott described as "death of the head of the hip bone." This can require surgery. can require surgery.
Unfortunately, there is Alabama Hospital. support, Dr. Scott said. This when needed and medication to relieve pain and treat

Other complications can Dr. Scott is professor of

a specific treatment for this Jacques and Joseph disease for some time," Dr. Montgolfier of Annonay, Scott said. "We have some France, sent up a

crop of corn that I believe I Several folks have asked have ever seen in this me about bitter cucumbers.

have ever seen in this county. It boils down to rainfall. Older corn needs another rain now. Younger corn will need additional rainfall to make a good yield.

GENERAL OUTLOOK:

Most fields of peanuts and soybeans are making excellent progress. Some peanut growers do not have a prefect stand but week and this peanut growers do not have a perfect stand but week and this peanut growers do not have a perfect stand but week about bitter cucumbers. Perry Smith, Vegetable Specialist at Auburn, told me that researchers think most bitterness is caused by drought. However, some individuals who have irrigated theory doesn't always work. Smith says the bitterest part of the cucumber is at the stem end. It seems I have Coffee County has 27 outstanding 4-H club members preparing for the District 4-H Contests in Troy next week. Some 400 youg people from 12 counties will be on campus at Troy State University next Tuesday and Wednesdav.

Those attending from Zion Chapel are: Donnie Hussey, Judy Helms, Robert Routzong, Elbert Maddox, Kim Dyess, Larry peanut growers do not have a stem end. It seems I have perfect stand, but over all we had more comments on bitter McWaters, Lisa Taylor, and have an adequate stand of peanuts. Most growers are two years than in several getting good stands of sov-

#### A RESOLUTION

RESOLVED, that in behalf of the members of the Elba Chapter #323, Order of The Eastern Star, these resolutions be adopted as a tribute to the memory of our beloved sister, CONNIE THOMAS, in whose death on June 6, 1981, we have lost one of our most beloved members.

HER graciousness, sympathy and unfailing kindness endeared her to her associates; while her strength of character, sincerity and high ideals won their genuine respect.

OUR deep sympathy for the members of her amily mingles with our own sorrow at the loss of one whose death robs both her home and the chapter of a gracious and inspiring presence.

RESOLVED FURTHER, that a copy of these resolutions be included in the minutes of the chapter, and that a copy be published in the local newspaper, and that a copy be sent to the family as an expression of our sympathy in the great loss sustained in her death.

> THIS the 9th day of June, 1981. /s/ MARY WHITMAN, Worthy Matron
